Energising Eye Treatment (15min) **£25**

See your eyes come alive with the vital energy of plants combined with energising pressure points to revitalise the look of the skin around the eyes as well as reduce dark circles and puffiness.

This clinically proven treatment has been around for a while, and Dr Des Fernandes the founder of Environ, who I have had the pleasure to meet and listen to many of his seminars, is the pioneer of needling and developed this treatment in 1997 as an alternative to aggressive lasers and peels, as these treatments compromise the skin.

He therefore wanted something that could naturally induce your own collagen and elastin to restore a youthful skin and generate all over skin health.

It's actually not a new treatment it has been around for years and is becoming more and more popular as people want a more natural looking youthful glow.
